The Wisconsin Podiatric Medical Association Political Action Committee (WPMA-PAC) is a non-profit, bipartisan fundraising committee through which podiatrists support state candidates who champion podiatric medicine's issues before the Wisconsin General Assembly.

WPMA-PAC enables podiatric physicians to be effectively involved where public policy decisions are made that impact how healthcare is administered and regulated in Wisconsin. By combining resources through contributions to the WPMA-PAC, podiatric physicians gain a stronger voice for the profession, their practices, and the patients they serve.

When you consider the importance of legislation in creating the laws and regulations that govern nearly every aspect of our healthcare system, the importance of supporting those who advocate for podiatric physicians and their patients is clear. Help make sure the voice of podiatric medicine is heard when and where it counts!

**PASSION LEAD US HERE**

The APMA Political Action Committee (APMAPAC) is a nonprofit, bipartisan fundraising committee through which podiatrists support federal candidates who champion podiatric medicine's issues before the US Congress.

Because of the efforts of the APMAPAC and its parent organization, the American Podiatric Medical Association (APMA), the profession has gained a national presence as a political force in Washington, DC.

APMAPAC's role is to support candidates seeking Congressional office in the US House and Senate. The only other legal means for such support is through contributions made directly to a candidate by an individual.
